### NO. 5: INDEX OF COMMUNICATION EXPENDITURES BY CORPORATIONS, LABOR ORGANIZATIONS, MEMBERSHIP ORGANIZATIONS, AND TRADE ASSOCIATIONS

1976 Campaign

#### BACKGROUND

This is the fifth report in the FEC Disclosure Series and covers communication costs incurred in advocating support or defeat of clearly identified candidates, as reported by 71 corporations, labor organizations, membership organizations and trade associations.

A total expenditure of \$2,146,899 was disclosed, with labor accounting for \$2,014,326; corporations, \$31,045; and one membership association, \$101,528.

Of the total communication expenditures, \$2,012,435 (93.7%) were in support of 414 candidates: 6 Presidential, 47 Senate and 361 House. The majority of funds, 57.2% or \$1,160,432, was spent in support of Jimmy Carter.

The remaining 6.3%, or \$134,464, was spent in either opposition to candidates (\$45,680) or has not yet been clarified (\$88,784).

This is the first publication of this type of index following the passage of the new requirement for such disclosure in the May 1976 Amendments to the Federal Election Campaign Act. This requirement marked the first time that corporations, labor unions, membership organizations, and trade associations were required to disclose the costs of their efforts in connection with Federal elections, other than expenditures channeled through political action committees.

Specifically, the law requires that these organizations report costs of any communications with their members, employees, stockholders, executive and administrative personnel, and families, which expressly advocate the election or defeat of any Federal candidate. The reporting requirement is triggered when such costs reach \$2,000 for each election.

#### CONTENTS

This index contains three parts:

1. An alphabetical list of **organizations** reporting, with a list of all documents filed and the amounts of communications costs reported for each filing.
2. An alphabetical list of organizations which reported, with a cross index of **candidates by office** whose election or defeat was advocated by communication efforts.
3. An alphabetical list of candidates with a cross index of those organizations reporting communications supporting them, and the total expenditures reported by each organization.

The figures in this index are as reported by each organization and are subject to adjustment through pending correspondence or FEC audit.

This new requirement went into effect on May 11, 1976 and was supplemented by FEC regulations submitted to Congress on August 3, 1976. The first reports were due by December 2, 1976 and were to include expenditures from May 11, although some organizations reported expenditures during the first quarter of 1976. Thus this index includes expenditures reported for the period January 1, 1976 through November 22, 1976.

**DEFINITIONS:**

The following applicable terms have been defined by Commission Disclosure Regulations as follows:

Section 100.7(5)

Any “communication” by a membership organization to its members or by a corporation to its stockholders or executive or administrative personnel, so long as the membership organization or corporation is not organized primarily for the purpose of influencing the nomination for election, of any individual to Federal office, except that the cost incurred by a membership organization, or by a corporation, directly attributable to a communication expressly advocating the election or defeat of a clearly identified candidate (other than a communication primarily devoted to subjects other than the express advocacy of the election or defeat of a clearly identified candidate) shall, if those costs exceed \$2,000 per election, be reported to the Commission on FEC Form 7.

Section 100.7(5)(i)

“Labor organization” means an organization of any kind (any local, national, or international union, or any local or State central body of a federation of unions is each considered a separate labor organization for purposes of this section) or any agency or employee representative committee or plan, in which employees participate and which exists for the purpose, in whole or in part, or dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work.

Section 100.7(5)(ii)

“Stockholder” means a person who has a vested beneficial interest in stock, has the power to direct how that stock shall be voted, if it is voting stock, and has the right to receive dividends.

Section 100.7(5)(iii)

“Executive or administrative personnel” means individuals employed by a corporation who are paid on a salary rather than hourly basis and who have policymaking, managerial, professional, or supervisory responsibilities.

Section 100.7(D)(IV)

“Members” means all persons who are currently satisfying the requirements for membership in a membership organization, trade association, cooperative, or corporation without capital stock and in the case of a labor organization, persons who are currently satisfying the requirements for membership on a local, national, or international labor organization. Members of a local union are considered to be members of any national or international union of which the local union is a part of and of any federation with which the local, national, or international union is affiliated. A person is not considered a member under this definition if the only requirement for membership is a contribution to a separate segregated fund.

Section 100.7(D)(V)

“Election” means two separate processes in a calendar year, to each of which the \$2,000 threshold described above applies separately. The first process is comprised of all primary elections for Federal office, wherever held; the second process is comprised of all general elections for Federal office, wherever held.

Section 100.7(D)(VI)

“Corporation” means any separately incorporated entity, whether or not affiliated.
